ELSEVIER

European Journal of Operational Research 81 (1995) 666–668

EUROPEAN
JOURNAL
OF OPERATIONAL
RESEARCH

Contents Volume 81

1 The analysis of survey data
J. Stack
17 A Decision Support System (DSS) for agricultural pesticide production planning
A.A. Elimam
35 An integrated model for the development of marginal water sources in the Negev Desert
J. Brimberg, A. Mehrez and G. Oron
50 A heuristic approach to improving the design of nurse training schedules
M. Nooriafshar
62 A decision aid for coordinating fishing and fish processing
S.U. Randhawa and E.T. Bjarnason
76 A decision support approach for negotiation with an application to agricultural income policy negotiations
J.E. Teich, H. Wallenius, M. Kuula and S. Zionts
88 Multiple and bicriteria scheduling: A literature survey
A. Nagar, J. Haddock and S. Heragu
105 A two-phase model for Planning the production of aluminum ingot
M.R. Bowers, L.A. Kaplan and T.L. Hooker
115 Assignment of tools to machines in a flexible manufacturing system
T.H. D'Alfonso and J.A. Ventura
134 Minimizing late jobs in the general one machine scheduling problem
S. Dauzère-Pérès
143 Optimization of order-up-to-*S* policies for two-level inventory systems with compound Poisson demand
R. Forsberg
154 Bounds for nested knapsack problems
R.E. Johnston and L.R. Khan
155 A note on the rule for sequential selection
A. Mehrez and G. Rabinowitz
176 A reference direction approach to multiple objective integer linear programming
J. Karaivanova, P. Korhonen, S. Narula, J. Wallenius and V. Vassilev
188 Algodesk: An experimental comparison of eight evolutionary heuristics applied to the Quadratic Assignment Problem
V. Maniezzo, M. Dorigo and A. Colorni
205 An algorithm for Quadratic Assignment Problems
W.-J. Li and J.M.G. Smith
217 OR Software
ORSEP – Operations Research Software Exchange Program, *H.W. Hamacher (ed.)*, MINOS(IIS) version 4.2: Analyzing infeasibilities in linear programs, *J.W. Chinneck and M.A. Saunders*
219 Book Reviews, *L.F. Gelders (ed.)*
Risk-taking Behavior, J.F. Yates (ed.)
Global Manufacturing Practices, D.C. Whybark and G. Vastag (eds.)
Quality Management of Safety and Risk Analysis, J. Suokas and V. Rouhiainen (eds.)
The Steiner Tree Problem, F.K. Hwang, D.S. Richerds and P. Winter
The Craft of Decision Modelling, P. Rivett
Applied Mathematical Programming and Modelling (Annals of Operations Research, Vol. 43), G. Mitra and I. Maros (eds.)
224 Call for Papers

225 The discrete time-cost tradeoff problem revisited
P. De, E.J. Dunne, J.B. Ghosh and C.E. Wells
239 Multiple period repair kit problem with a job completion criterion: A case study
D. Heeremans and L.F. Gelders
249 Designing a quality control system in a service organization: A goal programming case study
M.J. Schniederjans and C.M. Karuppan
259 An analysis of lead–lag structures using a frequency domain approach: Empirical evidence from the Finnish and Swedish stock markets
J. Knif, S. Pynnönen and M. Luoma
271 An information-theoretic two-stage, two-decision rule, choice model
D.H. Gensch and E.S. Soofi
281 Novel types of sensitivity analysis for additive MCDM methods
W.T.M. Wolters and B. Mareschal
291 Multi-criteria analysis with partial information about the weighting coefficients
E. Carrizosa, E. Conde, F.R. Fernandez and J. Puerto
302 On evaluating the performance of 'wide-band' GDSS's
C. Eden
312 A one-vendor multi-buyer integrated inventory model
L. Lu
324 Stochastic choice hazard and incentives in a common service facility
S. Radhakrishnan and K.R. Balachandran
336 A predictive model for the throughput of simple assembly systems
K.R. Baker and S.G. Powell
346 Optimal control of a simple immigration–birth–death process through total catastrophes
E.G. Kyriakidis
357 Optimal pest control through the introduction of a predator
E.G. Kyriakidis
364 Resource-constrained job scheduling with recyclable resources
J.P. Shewchuk and T.C. Chang
376 Scheduling on a two-machine flowshop subject to random breakdowns with a makespan objective function
A. Allahverdi and J. Mittenthal
388 Modified simulated annealing algorithms for the flow shop sequencing problem
H. Ishibuchi, S. Misaki and H. Tanaka
399 A fuzzy satisficing method for large-scale linear programming problems with block angular structure
M. Sakawa, K. Sawada and M. Inuiguchi
410 Special cases of the quadratic assignment problem
B. Chen
420 The linear complementarity problem with a parametric input
B. Xiao
430 A constrained Steiner tree problem
M.B. Rosenwein and R.T. Wong
440 A direct approach for finding all efficient solutions for multiobjective programming problems
E.A. Youness
444 Call for Papers

445 High interaction graphics
S.G. Eick and G.J. Wills
460 Reconsidering the distribution structure of gasoline products for a large oil company
L. van der Bruggen, R. Gruson and M. Salomon
474 Sales effects of depot locations
B. Baunack, A. Mercer and A. Napp
479 Pictures from an exhibition: Images of OR/MS
M. Pidd
489 Service level risk in a pipeline system: A stochastic analysis
C. Haehling von Lanzenauer, W.G. James and D.D. Wright
500 Water resources planning in the Middle East: application of the PROMETHEE V multicriteria method
M.F. Abu-Taleb and B. Mareschal

512 Effects of inflation and time-value of money on an inventory model with time-dependent demand rate and shortages
M.A. Hariga
521 Industry simulation: System modelling with an object oriented/DEVS technology
P. Ninios, K. Vlahos and D.W. Bunn
535 A reservoir hydroelectric system: Exactly and approximately optimal policies
B.F. Lamond, S.L. Monroe and M.J. Sobel
543 Some problems with the design of self-learning open-loop control systems
Z. Flikop
553 A worst-case analysis of two approximate algorithms for the asymmetric travelling salesman problem
G. Righini and M. Trubian
557 Transformation of multidepot multisalesmen problem to the standard travelling salesman problem
Yang GuoXing
561 The minimal average cost flow problem
Y.L. Chen
571 Flowshop sequencing with mean flowtime objective
J.C. Ho
579 A procedure for the one-machine sequencing problem with dependent jobs
S. Dauzère-Pérès
590 A discussion of testing DMUs' returns to scale
J. Zhu and Z.-H. Shen
597 Solution of a tinned iron purchasing problem by Lagrangean relaxation
B. Dorhout
605 Logic applied to integer programming and integer programming applied to logic
H.P. Williams
617 A parallel depth first search branch and bound algorithm for the quadratic assignment problem
B. Mans, T. Mautor and C. Roucairol
629 Ratio combinatorial programs
Y.P. Aneja and S.N. Kabadi
634 Minmax combinatorial optimization
A.P. Punnen and Y.P. Aneja
644 Solving a bilevel linear program when the inner decision maker controls few variables
Y.-H. Liu and T.H. Spencer
652 On linear inequality systems without strongly redundant constraints
J.J.M. Derks
663 Algorithms for a class of single-machine weighted tardiness and earliness problems. European Journal of Operational Research 52 (1991) 167–178
C.A. Yano and Y.-D. Kim
665 Call for Papers
666 Contents Volume 81
